2 LETTER TO SHAREHOLDERS

Dear Shareholder

As announced on 27 January 2010, the Company is undertaking a fully underwritten non-renounceable Rights Issue on the basis of 1 New Share for every 7 Existing Shares held at the issue price of 1 cent per New Share, together with 1 attaching New Option for every 2 New Shares subscribed for, exercisable at 1.5 cents each on or before 30 June 2011.

On 25 February 2010 the Company lodged the Original Prospectus with ASIC in relation to the Rights Issue. This Prospectus replaces the Original Prospectus. The Company has decided to issue this Prospectus to provide Shareholders with updated financial information following the release of the Company's audit reviewed 31 December 2009 accounts (refer to the notes to the pro-forma in **section 4.3** of this Prospectus for further information).

The Rights Issue provides the opportunity for Eligible Shareholders to participate on similar terms as the placement that was also announced on 27 January 2010 undertaken through Novus Capital Limited (AFS licence 238168) ("**Novus**") and Cunningham Peterson Sharbanee Securities Pty Ltd (AFS licence 294848) ("**CPSS**"). Novus and CPSS have agreed to underwrite the Rights Issue.

The Rights Issue is expected to result in the issue of approximately 106 million New Shares and 53 million New Options in the Company and will raise an estimated \$1,065,054 before costs. This Rights Issue combined with the placement will inject approximately \$2.1 million into the Company before costs.

The proceeds from the Rights Issue are planned to be used to fund marketing and distribution of the Company's ThermoLife Cream® as part of its re-entry into the market, and for general working capital purposes.

If you have any queries regarding your entitlement or participation in the upcoming Rights Issue, please do not hesitate to contact your stockbroker or financial advisor.

I commend this Rights Issue to you and look forward to your continued support as a Shareholder.

John Palermo
Chairman

3 DETAILS OF THE OFFER

3.1 The Issue

A non-renounceable pro rata entitlements issue to Eligible Shareholders of approximately 106,505,398 New Shares and 53,252,699 attaching New Options on the basis of 1 New Share for every 7 Existing Shares held as at the Record Date at an issue price of 1 cent each and 1 attaching New Option for every 2 New Shares subscribed for, to raise approximately \$1,605,054 before issue costs.

3.2 Underwriting

The Issue is fully underwritten by Novus and CPSS. A summary of the underwriting agreement is set out in **section 8.2** of the Prospectus.

3.3 Entitlement to Rights Issue

Eligible Shareholders who are on the Company's Share Register at the close of business on the Record Date are eligible to participate in the Offer.

Fractional Entitlements will be rounded up to the nearest whole number of New Shares and New Options. For this purpose, holdings in the same name are aggregated for calculation of Entitlements. If the Company considers that holdings have been split to take advantage of rounding, the Company reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements.

An Application Form setting out your Entitlement to New Shares and New Options accompanies this Prospectus.

3.4 Acceptances

This Offer may be accepted in whole or in part prior to the Closing Date subject to the rights of the Company to extend the Offer period or close the Offer early.

Instructions for accepting your Entitlement are set out in **section 5** and on the Application Form which accompanies this Prospectus.

3.5 Rights Trading

The Offer is non-renounceable. This means that the Rights of Eligible Shareholders to subscribe for New Shares and New Options under this Prospectus are not transferable and there will be no trading of Rights on ASX. Eligible Shareholders who choose not to take up their Rights will receive no benefit and their shareholding in the Company will be diluted as a result.

3.6 Applying for Additional New Securities

Eligible Shareholders may, in addition to their Entitlement, apply for additional New Shares and New Options regardless of the size of their present holding.

Any Entitlements not taken up may become available as Additional New Securities which may be placed by the Underwriters in accordance with the Underwriting Agreement. It is possible that there will be few or no Additional New Securities available for issue, depending on the level of take up of Entitlements by Shareholders. There is also no guarantee that in the event Additional New Securities are available for issue, they will be allocated by the Underwriters to all or any of the Eligible Shareholders who have applied for them.

It is an express term of the Offer that applicants for Additional New Securities will be bound to accept a lesser number of Additional New Securities allocated to them than applied for. If a lesser number is allocated to them, excess application money will be refunded without interest. The Company reserves the right to scale back any applications for Additional New Securities as directed by the Underwriters in their absolute discretion.

3.7 Allotment and Application Money

New Shares and New Options will be issued only after all Application Money has been received and ASX has granted permission for the New Shares and New Options to be quoted. It is expected that New Shares and New Options will be issued on 8 April 2010 and trading of the New Shares and New Options on ASX is expected to commence on 9 April 2010.

All Application Money received before New Shares and New Options are issued will be held in a special purpose account. After Application Money is refunded (if required) and New Shares and New Options are issued to Applicants, the balance of funds in the account plus accrued interest will be received by the Company.

Application was made on the date of issue of the Original Prospectus for the New Shares and New Options to be granted Official Quotation by ASX. If Official Quotation of the New Shares and New Options is not granted by ASX within three months of the date of the Original Prospectus, then the Company will not allot or issue any New Shares or New Options and all Application Money received pursuant to this Prospectus will be repaid as soon as practicable, without interest.

If the New Shares and New Options are not quoted by ASX within three months after the date of the Original Prospectus, the Company will refund all Application Money in full.

The fact that ASX may agree to grant Official Quotation of the New Shares and New Options is not to be taken in any way as an indication of the merits of the Company or the New Shares and New Options. ASX takes no responsibility for the contents of this Prospectus.

3.8 Issue Outside Australia and New Zealand

This Prospectus does not constitute an offer of Securities in any jurisdiction where, or to any person to whom, it would not be lawful to issue the Prospectus or make the Offer. No action has been taken to register or qualify the Securities or the Issue or otherwise to permit an offering of the Securities in any jurisdiction outside Australia and New Zealand.

3.9 Treatment of Overseas Shareholders

The Offer in this Prospectus is not being extended to any Shareholder, as at the Record Date, whose registered address is not situated in Australia or New Zealand because of the small number of such Shareholders, and the cost of complying with applicable regulations in jurisdictions outside Australia and New Zealand. The Prospectus is sent to those Shareholders for information only.

The Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the Securities Act (Overseas Companies) Exemption Notice 2002 (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any Securities.

Recipients may not send or otherwise distribute this Prospectus or the Application Form to any person outside Australia (other than to Eligible Shareholders).

3.10 Market Prices of Existing Shares on ASX

The highest and lowest market sale price of the Existing Shares, which are on the same terms and conditions as the New Shares being offered under this Prospectus, during the three months immediately preceding the lodgement of this Prospectus with the ASIC, and the last market sale price on the date before the lodgement date of this Prospectus, are set out below.

	3 month high	3 month low	Last market sale price
Existing Shares	\$0.023 on 27.01.2010	\$0.006 on 17.12.2009	\$0.013 on 04.03.2010

3.11 Opening and Closing Dates

The Issue will open for receipt of acceptances on 10 March 2010 and will close on 29 March 2010, subject to the right of the Company to vary these dates.

3.12 CHESS

The Company participates in the Clearing House Electronic Sub-register System (“**CHESS**”). ASTC, a wholly owned subsidiary of ASX, operates CHESS in accordance with the ASX Listing Rules and the ASTC Settlement Rules.

Under CHESS, applicants will not receive a certificate but will receive a statement of their holding of New Shares and New Options.

If you are broker sponsored, ASTC will send you a CHESS statement.

The CHESS statement will set out the number of New Shares and New Options issued under this Prospectus, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by the Company’s share registrar and will contain the number of New Shares and New Options issued to you under this Prospectus and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

3.13 Rights and Liabilities attaching to the New Shares and New Options

The New Shares will rank equally in respect of dividends and in all other respects (e.g. voting, bonus issues) as Existing Shares.

A summary of the rights and liabilities attaching to the New Shares and New Options is set out in **section 6**.

3.14 Taxation Implications

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company conducting the Issue or Shareholders applying for New Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Shareholders in the Issue. Shareholders should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Issue.

7 RISK FACTORS

7.1 Overview

Investors should be aware of the following key risks that may affect the future operating and financial performance of Pharmanet and the value of Pharmanet Shares. These risks include general risks associated with any form of business and specific risks associated with Pharmanet's business.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Commercialisation risk

The Company may seek to commercialise its technology and/or potential pipeline products through out-licensing to pharmaceutical and cosmetic partners. There is no guarantee that any licensing agreement will be executed or that the Company will achieve future licensing fees or royalty income.

7.3 Intellectual Property risk

The Company has filed (either in its own name or in the name of its wholly-owned subsidiary, Cambridge Scientific Pty Ltd) several patent applications relating to the Tripeptofen project which will define the rights in the use of the Company's active ingredients in the commercially important analgesic and anti-inflammatory fields. The patent applications are directed towards the manufacture of a proprietary active ingredient for analgesic action and the claims cover the manufacturing process and the product/s which may flow from the process. To date, patents have been granted in South Africa, the United States and India, a patent application has been accepted in New Zealand and patent applications are awaiting examination in 4 other countries. The Company also has three patent families in National Phase, under examination or awaiting examination in 8 countries, relating to tissue disruption treatments Cox 2 inhibition and anti-cytokine activity.

There is no guarantee that the patent applications will not infringe competitor patents or that the patent applications will be granted by authorities in key jurisdictions. Prior to the grant of the patent applications, Pharmanet intends to request the inventors (and any potential inventors) of the relevant technology (to the extent they have not already done so) to assign ownership of the technology to Cambridge Scientific Pty Ltd. Pharmanet anticipates that the inventors (and any potential inventors) will sign the required documents. This will mitigate the risk of any challenge to the ownership of a patent by an inventor after the patents are granted. If the assignment documentation is not signed by the inventors (or any potential inventors) prior to the grant of the patents to the Company or Cambridge Scientific Pty Ltd, there is a risk that the patents could be revoked if subsequently challenged by the inventors. However, the directors of the Company believe this risk to be low.

7.4 Competitive risk and Market Acceptance

Multiple early-stage and mature competitors exist in the health care and pharmaceutical markets including those that have more advanced technologies and products marketed or in development. Competition by superior technologies and/or products may negatively affect the profit potential of the Company's technologies and/or future products.

The success of the Company's technologies and products will depend on their competitiveness and acceptance by the market, as well as the Company's ability to improve the drug delivery profile or cost of proposed products to meet the evolving needs of customers on a timely basis. The global marketplace for most products is constantly changing due to new technologies, new products, changes in preferences, changes in regulations and other factors influencing market acceptance or market rejection. This market volatility and risk exists despite the best endeavours of market research, promotion and sales and licensing campaigns.

7.5 Market risk

The Company operates in the health care industry which includes multiple market segments. The Company is seeking to reintroduce Thermalife™ Cream to the Australian market, take existing products into new territorial markets and further diversify its business risk by developing line extension products based on the same active ingredient and developing new products for new therapeutic indications. There can be no assurance that the Company will secure such new business opportunities or that the new opportunities will provide additional value to the Company.

The Company may also be adversely affected by the general market sentiment towards the healthcare sector and pharmaceutical markets.

7.6 Development and Regulatory risk

International regulatory authorities are requiring more extensive clinical trials to show evidence of safety and efficacy for new pharmaceutical products. Changes to regulatory requirements may increase the development costs and time to market.

7.7 General Risks

The future viability and profitability of the Company as a company involved in the research, development and manufacture of pharmaceutical products will be dependent on a number of factors, including, but not limited to, the following:

- (a) currency exchange rate fluctuations;
- (b) the risk of material adverse changes in the government policies or legislation of Australia affecting the level of business activities;
- (c) the impact of the introduction of tax reform;
- (d) the strength of the equity and share markets in Australia and throughout the world;
- (e) general economic conditions in Australia and its major trading partners and, in particular, inflation rates, interest rates, commodity supply and demand factors and industrial disruptions;
- (f) environmental management issues with which the Company may be required to comply from time to time;
- (g) financial failure or default by a participant in any of the joint ventures to which the Company is, or may become, a party;
- (h) the impact of international accounting standards board (IASB) reporting requirements; and
- (i) industrial disputes in Australia and overseas.

7.8 Government Policy

Industry profitability generally can be affected by changes in government policy which are beyond the control of the Company.

7.9 Share Market Risk

The market price of Shares can be expected to rise and fall in accordance with general market conditions. Neither the Company nor its Directors warrant the future performance of the Company or any return on investment in Shares.

7.10 Future Capital Needs and Additional Funding

The future capital requirements of the Company will depend on many factors including the success of the technology proof-of-concept program and partner collaborations. The Company believes its available cash and the net proceeds of this Offer should be adequate to fund the

continued pursuance of the Company's existing projects and objectives. However, the Company faces certain technology, development, economic and commercial risks which may adversely impact on the belief that the Company will have, as a result of this Rights Issue, sufficient funds to meet the Company's projected expenditure requirement.

The Company intends to identify, evaluate and source new business opportunities that meet investment criteria set by the Company. The Company may require additional funds to fund these new business opportunities. Should the Company require such additional funding, there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

7.11 Reliance on Key Personnel and Employees

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively towards achieving the Company's technical and commercial goals. To manage its growth, the Company must attract and retain additional highly-qualified management, scientific, technical, and business development personnel and continue to implement and improve product development, intellectual property management and operational processes. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

7.12 Joint Venture Parties, Agents and Contractors

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture or strategic alliance to which the Company is or may become a party or the insolvency or managerial failure by any of the contractors used by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

8 ADDITIONAL INFORMATION

8.1 Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111 AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class of Shares that have been quoted on the official list of the ASX during the 12 months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Shares and New Options on the Company and the rights attaching to the New Shares and New Options. Provided the Company has otherwise complied with its continuous disclosure obligations under the Corporations Act and the Listing Rules, it is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the financial statements of the Company for the financial year ended 30 June 2009 being the last financial statements for a financial year, of the Company lodged with the ASIC before the issue of this Prospectus;
 - (ii) the half-year financial report of the Company for the half-year ended 31 December 2009, being the half-year financial report of the Company lodged with ASIC after lodgement of the financial statements referred to in paragraph (i) above and before the issue of this Prospectus; and

- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the financial statements referred to in paragraph (i) above until the issue of the Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.
